

WOODIE  
MILANO

Designed for Excellence

## Who are we?

---

We are Italian souls on a mission: make charging effortless and pleasant by combining wireless charging with great designs and unique materials. We explore the world of design and materials to give you the best Italian craftsmanship for well-built and durable products.

We fill the gap between purposeless design and everyday use technology.

# The Guests' Charging Needs

## Chargers are most forgotten travel essentials

76% of users believe **chargers** are very important while traveling.

In the last-minute rush, it is also the most forgotten item.

## Travel adapters are the most used devices in the room

All guests need to **charge** their devices at least once a day.

Foreign guests will need a **travel adapter** to do this.

## Lack of power plugs in the rooms

Every guest has an average of 2 devices among mobiles, tablets, laptops, cameras, earphones, drones.

How many **charging points** do your room provide?

## **Your rooms can deliver satisfying charging solutions?**

Here's some suggestion to make the ultimate guests experience...

|| **How easy and pleasant is it to connect to the electricity grid?** ||

Multi-charging and easily accessible

Limited options and less accessible

|| It will no longer be necessary to always supply travel adapters ||

|| How would you improve your room's standing? ||

Clean and organized

Messy and cluttered

## Are you keeping it green?

---

Stop wasting resources on travel adapters! Most of the hotels provide travel adapter to their guests free of charge and never get them back. It is a waste of money and has an harmful environmental impact!
